Math Intervention Data Tracking

Student Name:

Domain:

Concerns: Jon scored a 20% on his NBT pretest. He has been performing well on standards 4.NBT.1 - 4.NBT.4, but started struggling with standards 4.NBT.5 and 4.NBT.6. Jon can multiply two digit by one digit, but not two digit by two digit.

Skills targeted during intervention: During intervention time, we will practice multiplying two digit by two digit numbers using different methods to increase Jon's number sense.

Duration of Process:

Goal:

	4.NBT.1 Quick Check	4.NBT.2 Quick Check	4.NBT.3 Quick Check	4.NBT.4 Quick Check	4.NBT.5 Quick Check	4.NBT.6 Quick Check	4.NBT.7 Quick Check
Student Score	80%	80%	80%	80%	40%	20%	60%

Teacher: _____ Age: _____

Assessment: _____ Score: _____ Date: _____

Domain Pretest(s)

2.G.1 Quick Check

2.G.2 Quick Check

2.G.3 Quick Check

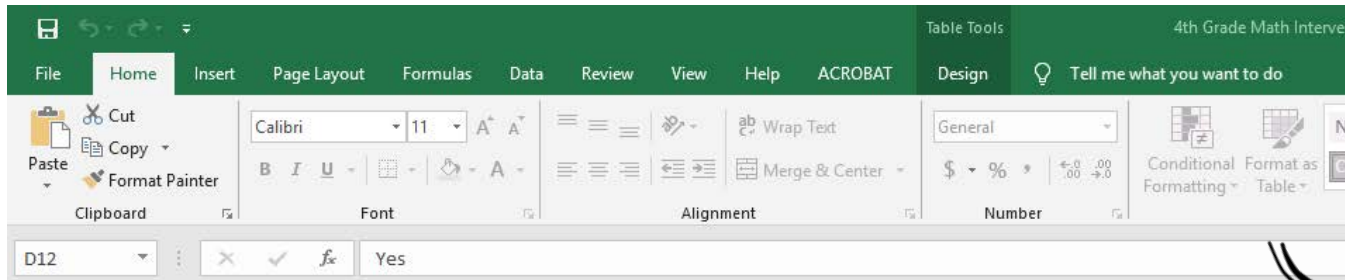

Tier of Intervention: _____

Approximately how many total hours spent on intervention strategies? _____

Next plan of action:

Use the domain trackers to document the different assessments within each set of standards. Bring this information to any data meetings you have with parents and administration.

WHAT'S INCLUDED IN THIS RESOURCE?

Instructions

1. Fill in the names of your students in the intervention process in the table below
2. Enter "YES" for each domain that requires monitoring
3. Go to the "Concerns & Skills" tab to enter or edit concerns, skills targeted, duration of process and goal
4. Go to the "Scores" tab to enter the corresponding marks (Areas that are not being monitored will appear shaded)
5. Go to the "Print Report" tab and select a student and a domain to produce print report

Note: For each student, only the domains that are being monitored will appear on the drop-down list

#	Student Name	NBT	OA	NF	MD	G
1	Jon Smith	Yes		Yes		Yes
2	Jane Doe		Yes		Yes	
3	Mary Poppins	Yes	Yes	Yes		
4	June Kale	Yes
