Each set includes 24 multi-step word problems aligned to a specific math standard. Answer key and recording sheet are included!

### Adding & Subtracting Fractions Task Cards

Ally ordered 5 different cakes for her birthday. Her guests ate  $3\frac{1}{4}$  of the amount of cake she ordered. Then she sent home  $\frac{1}{2}$  of a cake with her grandmother. How much cake does Ally have left?

#1

### Adding & Subtracting Fractions Task Cards

Edin combined  $3\frac{1}{3}$  pounds of meat with  $2\frac{1}{8}$  pounds of rice to make a dish. He accidentally spilled  $\frac{4}{6}$  of a pound of his dinner while pouring it into a bowl. How much food does Edin have left for dinner?

#2

### Adding & Subtracting Fractions Task Cards

Kolton has  $2\frac{5}{6}$  pounds of apples. His mom buys  $4\frac{5}{12}$  pounds more at the store so they can make an apple pie. If the apple pie calls for  $2\frac{5}{24}$  pounds of apples, how many pounds will not be used?

#3

### Adding & Subtracting Fractions Task Cards

Ashley ran  $1\frac{5}{7}$  miles, while her sister ran  $2\frac{4}{6}$  miles. Their mom who is training for a marathon ran  $6\frac{1}{2}$  miles. How many miles did the family run in all?
