Each set includes 24 multi-step word problems aligned to a specific math standard. Answer key and recording sheet are included!

5.NBT.7 Decimal Task Cards

A plant was initially 4.59 inches tall. If the plant grows .68 inches this week and grew .34 inches last week, how tall is it now?

#1

5.NBT.7 Decimal Task Cards

It rained 3.42 inches overnight. 0.67 inches evaporated during the day, and then another 1.23 inches of rain fell. What would be the depth in the rain gauge now?

#2

5.NBT.7 Decimal Task Cards

A table has a length of 34.5 inches and a width of 59.5 inches. You can add a board to the middle of the table that is 34.5 inches wide and 12 inches long. With the board included, what is the area of the table?

#3

5.NBT.7 Decimal Task Cards

The art teacher is going to have students paint a mural on the wall of the school. The building is 632.5 feet long, and there are 73 students. Part of the wall can't be painted because it has doors in it; this part of the wall is 12 feet long. How wide is the area that each student will have to paint?
