Dividing Fractions 5.NF.7 Task Cards

You have two bags of cookies that are partially eaten. One bag is $\frac{1}{4}$ full and the other bag is $\frac{3}{8}$ full. If you divide these cookies amongst 6 friends, what portion of a bag of cookies will each person get?

#1

Dividing Fractions 5.NF.7 Task Cards

You have 4 bouquets of red roses and 5 bouquets of pink roses. If you want to give each person $\frac{1}{3}$ of a bouquet of flowers, how many people can you give flowers to?

#2

Dividing Fractions 5.NF.7 Task Cards

You need to fill two aquariums. One hold 8 gallons of water, and the other holds 4 gallons of water. If you have a pitcher that holds $\frac{1}{3}$ of a gallon of water, how many full pitchers will you need to add to the aquariums to fill them?

#3

Dividing Fractions 5.NF.7 Task Cards

A serving of almonds is $\frac{1}{4}$ of a cup. You have one package of almonds with $2\frac{1}{2}$ cups in it and another package with $1\frac{1}{2}$ cups in it. How many servings of almonds do you have?
