WHAT IS A DIGITAL ESCAPE?

A digital classroom escape is an interactive activity in which teams of students use clues to solve challenges and unlock "digital locks." These activities consist of two academic activities aligned to a specific math skill and two puzzlers/challenges. Teacher directions and tips are included!

ESCAPE THE FACTORY

DIGITAL ESCAPE

Follow these rules:

- Once you and your team are ready to start, hit the timer button. You are not allowed to pause or change the time.
- You are allowed ONE FREE HINT. Afterwards, you are allowed two more hints, but they will cost you three minutes added to your time!
- You must follow the order of the activities, starting with Activity #1.
- HAVE FUN!

Hillcrest Elementary School teacher, **M**rs. Markel loves school supplies. In fact she has the largest desk of any teacher on campus to store all of her treasures. Mrs. Markel's favorite supply is Paper Pal markers. Her giant desk holds more than 500 markers including more than 50 different colors. She even has special scented markers she uses when a student receives a high grade on an exam. If the student can correctly identify the scent of the marker, Mrs. Markel gives the marker to the student.

Several months ago, Paper Pal began building a new factory only 10 miles away from Hillcrest Elementary School. Many teachers joked that the only reason Paper Pal chose this location was to save

WHAT DO I NEED TO ACCESS THESE ESCAPES?

You need access to the internet and technology devices. These escapes work on Chromebooks, iPads, and laptops! You **DO NOT** need a Google account or access to Google Classroom to use Digital Classroom Escapes.

BENEFITS OF A DIGITAL ESCAPE:

- EASY PREP! Nothing to print except for teacher directions and tips.
- Interactive for students
- Immediate student feedback
- Practice of a specific math skill
- Promotes team building/ peer collaboration
- Promotes problem solving skills
- Targets technology standards

EVERYTHING YOU NEED IS HERE!

GETTING STARTED:

PREP BEFORE THE ESCAPE

INTRODUCING THE ESCAPE

DURING THE ESCAPE

What does the teacher do?

Monitor your students to ensure that the escape is being completed appropriately. Observe the dynamics of each group. Are there students that are trying to hog the activities and tech device? Are there students that are sitting back and not participating? Encourage proper behavior.

What do I do if a group is struggling?

Productive struggle is okay! Encourage students to keep trying. You don't want to help them along too early. After some time, if a group is struggling to advance to the next activity give them a clue. They are allowed one FREE clue. Any hints afterwards will cost a group an extra 3 minutes of time per clue.

Activities #2 and #4 are academic based. If students are struggling to find the correct combination for the lock, you can give them a clue/hint by telling them the question with the incorrect answer.

Refer to your "cheat sheet" containing information and clues regarding each activity to help your students.
