Test Prep

Each set includes 24 multi-step word problems aligned to a specific math standard. Answer key and recording sheet are included!

### 5.OA.2 Expression Task Cards

The average length of a song on Jason's playlist is 192 seconds. There are 17 songs on his playlist. When he plays it, it includes 2 commercials, each one of which is 35 seconds long. Write an expression that shows how many seconds it will take to listen to the entire playlist, including commercials.

#13

### 5.OA.2 Expression Task Cards

Tonya earns \$15.35 per hour. Last week, she worked for 26 hours. She spent \$124 on groceries. Write an expression that shows how much money Tonya has now.

#14

### 5.OA.2 Expression Task Cards

Paulo's test scores were 79, 82, 100, and 85. His teacher determines grades by adding all of the test scores together and then dividing the total by four. Write an expression that shows Paulo's grade.

#15

### 5.OA.2 Expression Task Cards

A factory sends out shipments with 12 items in each box. They can ship 370 boxes per day. Write an expression that shows how many items they can ship in ten days.
